"I really enjoy the overall game design and features. Specifically, I like that I can fire multiple shots at the enemies and I also like the background design.

To improve the game, I would recommend implementing more sound and to create a final boss if you have time."

- Joseph Ismael

"I Like the Multiple projectile shots, Enemy sprite design, Reloading.

You should work on showing your lives. Make it clearer. Also make the 2nd level easier. "

- Sebastian Woo
